Conference WATERFRONT SOLUTIONS – how to convert waterfronts properties into valuable developments”

At the beginning the solutions were mainly devoted to private waterfront developers willing to build yacht clubs particularly in the Moscow region. But nowadays the complexity of the integration of waterfront solutions is a multidisciplinary task and requires strategic, territorial, social and economic thinking that far exceed the traditional field of civil engineering understood as pure technique.

We would like to share substantial local and international experience in the fields of planning, designing, building and operating marinas in diverse waterfront conditions.

Topics for discuss in the frames of the Conference^

- Strategic planning of infrastructure

- Territorial integration
- Analysis of public investment
- Analysis of private investment. Financial and operational planning
- Development of Public-Private-Partnership (PPP) projects

12.00 - 14.00 | Californie Verrière, level 5
